

CABLE TAGS

Laser engraved tie-on cable tags are ideal for organizing industrial or heavy duty cables or wires. These stainless steel cable labels are resistant to corrosion, fire, and water. When our stainless steel cable tags are laser engraved, the metal is annealed so that the markings are permanent.

SIZES

We have two different cable tag sizes to meet your needs. They both have a thickness of .25mm.

89 mm (Length) x 10 mm (Width)
89 mm (Length) x 19 mm (Width)

CUSTOM TEXT

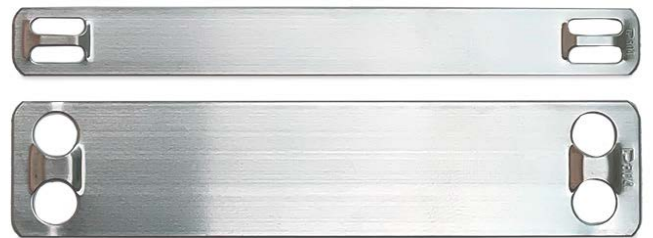

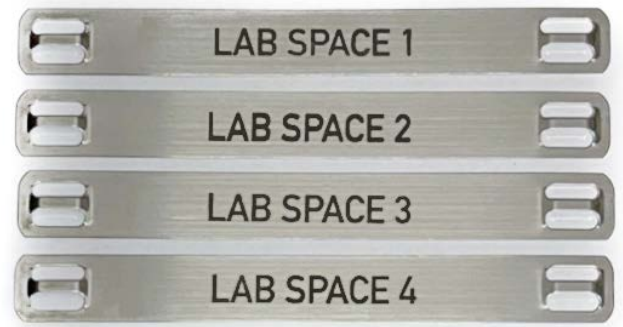

Whether you need several tags with the same text or thousands of tags with unique sequential numbers, we can get you exactly what you need.

Mass production is our speciality and we would love to help you get started today!

STAINLESS STEEL CABLE TAGS

All cable tags are made of 316 stainless steel, which makes them highly durable in harsh conditions.

Each tag has tie slots so that you can easily mount them with zip ties across your bundled cables or wires.
